

Dear Primary School Head teacher/DSL

Engaging with parents is a challenge in relation to most school related issues and one of the most challenging issues to engage with parents with is PREVENT. Occasionally curious parents may enquire about PREVENT, especially when it's been in the news. Most schools have suitable resources in their reception areas but for those whom have not attached is a generically created PREVENT leaflet for parents specifically for Primary Schools use.

You may wish to print some copies off for your reception areas and also link the PDF to your safeguarding section on your website.

This PDF will also be available for download along with lots of other useful resources under the Middlesbrough Council's PREVENT web pages for education which can be accessed here:
<https://www.middlesbrough.gov.uk/community-support-and-safety/prevent/prevent-educational-resources-primary-secondary-and-post-16>

Thank you in consideration of my approach.

Regards

Andy
